Oil Change Kits Save Time & Money!

800-854-3140 / 503-304-8899
www.FunPartsXpress.com

Tires, Engine and CLUTCH is a go-kart's largest maintenance expense. The lack of regular oil changes is the number one reason clutches fail.

Oil should be changed **every 100 hours** for commercial go-kart use; that's once a week for many tracks.

Oil Extractor

Oil Dispenser

Using our oil extractor and dispenser, complete oil change takes less than a minute, with no need to remove the kart body or dipsticks: change oil in 30 karts in 1 hour. Both are designed to work on most concession go-karts with Honda GX140 - GX270 engines.

Part #	Description	Price
1-60-0130	Oil Extractor (Electric) FPX	\$ 555.39
011050	Oil Dispenser, 6.3 Gal (Air) W/Meter	\$ 576.30
