### FPX Track Blaster

Imagine cleaning and drying your Go-Kart track in the time it takes to walk it.

Well, now you can with the Track Blaster from FPX!

We offer the most powerful walk-behind blower on the market today. The hurricane-force wind is created by a Honda 13 hp or a Honda/Robin 9hp commercial grade engine. The Track Blaster is capable of producing wind speeds of up to 180mph and over 2,400cfm, which allows you to get the job done fast.

The Track Blaster is easy to start and operate. Its large 15-inch pneumatic rear tires make pushing it a "breeze." There is also a self propelled-version for tracks with bridges.

The Track Blaster is great for all of your cleaning and drying needs. Use it on your track, your parking lots, or your landscape. With a throttle control arm, you can adjust the wind speed to fit any of these cleaning tasks.

Order yours today, and don't let the rain shut you down.

It's a money-maker.  
The faster you get your track up and running,  
the faster you can start making money.

Concrete/Asphalt dries in less than a minute.
